

PROFESSIONAL SUMMARY

Data-driven professional with extensive experience in the Microsoft Power Platform, specializing in end-to-end Power BI development, complex DAX modeling, and automated ETL workflows. Proven track record of transforming raw operational data into interactive executive dashboards that saved 8+ hours per week in manual tracking and improved reporting efficiency by 20%. I am currently pursuing an MSc in Business Analytics to integrate advanced predictive insights into BI solutions.

TECHNICAL SKILLS

- Power BI
- Power Query / ETL
- Advanced Excel
- SQL
- Data Integration
- Azure + Azure Data Lake
- Reporting & Executive Dashboards
- KPI Analysis & Insight Generation
- Automation Mindset
- Power Platform
- Data Storytelling
- Forecasting & trend analysis

PROFESSIONAL EXPERIENCE

Executive (Analysis) / Data Analyst | Hitachi Digital Payment Solutions | 2020 - Present

- **End-to-End Power BI Development:** Engineered multi-page Power BI dashboards using advanced DAX to track KPIs, saving stakeholders ~8 hours per week through real-time visibility.
- **ETL & Data Modeling:** Built robust Power Query (M) processes to extract, clean, and transform data from diverse sources, improving data accuracy by 10% through standardized validation.
- **Power Apps Integration:** Developed a custom Power Apps solution for ATM monitoring, enabling real-time issue reporting and enhancing data traceability for the engineering team.
- **Automation:** Reduced manual reporting effort by 20% by automating weekly stakeholder updates, ensuring consistent delivery and data integrity.

Executive | Novus Technologies Pte Ltd (DFCC Bank ATM/CRM Project) | 2018 - 2020

- **Performance Analytics:** Designed automated Excel-based dashboards to monitor terminal breakdown patterns and customer access failures, directly supporting preventive maintenance strategies.
- **Process Optimization:** Developed complex reconciliation models to streamline financial operations and improve the accuracy of multi-source data sets.

Implant Trainee (Sourcing & Supply Chain) | MAS Linea AQUA | 2017 - 2018

- Assisted in core merchandising operations by tracking sample approvals, managing material follow-ups, and collaborating with cross-functional teams to meet production timelines.

- Developed Excel trackers to monitor purchase order status with validation rules and conditional formatting for quick exception handling.
 - Supported process improvement initiatives by updating process maps and documenting operational gaps (Visio/Excel).
 - Coordinated with external stakeholders to support timely and accurate freight/logistics activities.
-

SAMPLE PROJECTS

Sales Dashboard ([Link](#))

- Built a multi-page Power BI report (Overview, Product Analysis, Geo Analysis) using a public dataset to demonstrate end-to-end modeling and visualization.
- Created measures for key sales metrics and designed drill-through style analysis for product and region performance.

HR Analytics Report ([Link](#))

- Created an HR analytics report covering demographics, performance trends, project involvement, and termination reasons to support workforce decision-making.
- Applied data transformation and KPI design to present clear insights for HR stakeholders.

Student Analytics Report ([Link](#))

- Leveraged modern **UI/UX design** techniques to enhance report navigation, user engagement, and the overall visual aesthetics of the dashboard.
- Designed a comprehensive student analytics dashboard tracking academic performance, attendance metrics, and demographic trends to support data-driven educational strategies.
- Implemented advanced data transformation and interactive visualizations to deliver actionable insights for academic evaluation.

EDUCATION

MSc Business Analytics | Robert Gordon University, Aberdeen, UK | Expected 2026

BSc Applied Sciences (Mathematics, Statistics & Industrial Management) | Wayamba University, Sri Lanka | Graduate in 2021

TRAINING & CERTIFICATIONS

- [Power BI Mastery](#) - Advanced (QBITZ)
 - Advanced Excel - Training & Building Excel Modules (E-Learning.lk)
 - [SQL DB](#) - Advanced (QBITZ)
